

I was molested when I was 6 by a family friend. I guess I just repressed it until puberty, but ever since then I've been addicted to regular porn and online role playing where I'm younger. I've tried to stop and have a normal life but I haven't been able to do it.

I want to get treatment but I'm not sure how to get it without being recognized. I've been saving to take a trip to Germany for treatment but that's been hard to do as well. I just want to have a normal life without this burden.
